Chastity Formation School Assistance

In our Catholic schools, young people are encouraged to strive for the highest goals in education and athletics; we must compliment that concept by inspiring them to do the same in their personal and spiritual lives. We will assist your school or parish to address life issues with God-centered responses and age-appropriate information

We will assist your school in chastity formation for middle school children – honoring our supplemental role in this area. The Vatican and Catechism reinforce that human sexuality is to be primarily taught by the parents, and is their moral responsibility. However, we can offer assistance in explanation of delicate adolescent issues and pressures of our current culture.

We offer the “Right Start” program for all eighth graders: A 4-5 point training on Catholic teachings embracing the lifestyle of chastity, embryology, consequences of ignoring a chaste lifestyle, explanation of the sexually transmitted disease epidemic, abortion procedures, risks & consequences, and understanding the value of every human life from conception to natural death.

We offer high school talks for retreats, assemblies, classrooms, youth groups – with available Q& A– going into greater detail with age-appropriate and medically sound information • Contact us for information on approved STD brochures displays for your high school (wall display for nurses’ office, etc.)

We will collaborate with local universities and colleges to provide unified initiatives in the form of discussion groups, lectures, symposiums and life research.

Promoting campus distribution of the periodical
